

CurrantCraft® Blackcurrant Extract

CurrantCraft® is a spray-dried blackcurrant extract, standardized to anthocyanins as the active compound. Using the membrane ultra-filtration method, the polyphenols are concentrated and the High Molecular Weight Fractions (polysaccharides, aroma and colour) are retained from the original blackcurrant juice.

Benefits:

- Powerful antioxidants
- Strengthen immune system
- Improve cardiovascular health by increasing peripheral blood flow
- Maintain eye health by improving dark adaptation and blood circulation
- Prevent Alzheimer disease by plaque reduction on brain micro-capillary tissue

Recommended Dosage:

- 270-460 mg/day

Properties:

- Solvent-free extraction
- Powder form
- Water-soluble
- Non-GMO

Applications:

- Dietary supplements
- OTC products
- Functional foods
- Pharmaceutical formulations
